

Emergencies can arise quickly and without warning. Are you armed and empowered with the tools you need to react appropriately? **The LSDS Personal Safety Kit** is a custom-built kit containing everything you need to mitigate emergency situations.

PERSONAL SAFETY KIT

HOW IT WORKS

STEP

1

Intake Call with LSDS

The personalization process begins with an in-depth intake call with one of our specialists to determine your specific Personal Safety Kit requirements - individual medical concerns, geographic location, transportation methods, hobbies, environmental factors, and any other impacting factors.

STEP

2

Customized 24 Hour Egress Bag Build

- ▶ One of our subject matter experts reviews your intake information and digitally builds a customized kit for you based on your specific requirements.
- ▶ Building a Personal Safety Kit is a team effort, so we'll provide updates and request your input throughout the process. If an item isn't exactly what you want or need, we'll exchange it until it is perfect.
- ▶ Once the kit construction is complete, we'll submit it to you with an invoice for final approval prior to procuring the items. Upon approval, our team will get to work procuring items and prepping them for use.

STEP

3

Delivery & Kit Introduction

- ▶ Once all items have been received, your Personal Safety Kit will be professionally packed and shipped directly to your door.
- ▶ Each kit is 100% ready to use immediately upon delivery, with no assembly required.
- ▶ Once your kit has arrived, one of our subject matter experts will schedule a call with you to review the contents of your bag and best practices for use.

WHAT'S IN A PERSONAL SAFETY KIT?

- ✓ Keychain Car Escape Tool
- ✓ Pepper Gel Spray
- ✓ CPR Face Shield Mask Keyring
- ✓ Mini Flashlight
